

#### GO Terms

- |   |  |
|---|--|
|  Tryptophan metabolism                       |  Biosynthesis of cofactors              |
|  Terpenoid backbone biosynthesis             |  Butanoate metabolism                   |
|  Glyoxylate and dicarboxylate metabolism     |  Nicotinate and nicotinamide metabolism |
|  African trypanosomiasis                     |  Fatty acid degradation                 |
|  Fat digestion and absorption                |  Pyruvate metabolism                    |
|  Valine, leucine and isoleucine degradation |  |
